## About The University

Sharda University has over the years become one of the leading centre of the education, research and innovation in Delhi NCR region, established through an act of state legislature of uttar Pradesh (14of2009). University offers over 216 UGC recognized Programmes/Plans in Various disciplines. It is a part of the renowned Sharda group with operations in area like education, health care and IT. Being the only global university in India that has seen students from 95+ Countries experienced world class faculties and having 270+ global academic partnerships, Sharda University offers a truly international learning environment. That's why it says "The World is here, where are you?" The School of Dental Sciences established in 2006, is a world-class platform where students and faculty cooperate in interdisciplinary education and research that serves its students and patient community, resulting in well-rounded curriculum that produces dentists tremendously skilled in the art and science of dentistry under the direction of exceptionally experienced faculty, students pursue a rigorous course of study at a nationally ranked college through their various degree and certificate programs.

## About The Topic

Implant Placement in the esthetic zone presents a significant clinical challenge due to the high demands for optimal functional and esthetic outcomes. Successful therapy requires meticulous preoperative planning, precise 3D implant positioning, and careful management of both hard and soft tissues. This protocol outlines a systematic surgical approach for implant placement in the anterior esthetic region emphasizing prosthetically driven planning, atraumatic surgical techniques and preservation of peri implant tissues.

## Objectives of Event

**The objectives of the programme are as below :**

- 1. To celebrate Prosthodontist Day by recognizing the role of prosthodontists in advanced oral rehabilitation.**
- 2. To update knowledge on contemporary implant solutions, with expert talks on crestal implants.**
- 3. To enhance clinical decision-making in managing atrophic jaws through appropriate implant selection and planning.**
