ABOUT SHARDA UNIVERSITY

Sharda university has over the years become one of the leading centres of the education, research and innovation in Delhi NCR region established through an act of state legislature of Uttar Pradesh (14 Of 2009), Sharda University offers over 216 UGC recognized Programmes/ Plans in various disciplines. It is a part of the renowned Sharda group with operations in area like education, health care and IT.

Being the only global university in India that has seen students from 85+ Countries experienced world class faculties and having 250+ global academic partnerships, Sharda University offers a truly international learning environment. That's why it says "The World is here, where are you?"

The college has a state of art, supportive learning environment with good clinical and library facilities, which attracts National and International students. Regular co-curricular and extracurricular activities are planned meticulously and organized by group of highly motivated faculty. Students have access to medical facilities within the campus as university has a world class 1200+ bedded NABH accredited multispecialty hospital with all modern medical facilities. Sharda Group has currently established a 550 bedded hospital in Nigeria equipped with the all-modern facilities and sophisticated equipment to provide comprehensive health care to all sectors of the society, and established a university in Uzbekistan.

ABOUT THE EVENT

Sharda School of Nursing Science & Research (SSNSR), Sharda University, is organizing a three-day clinical skills workshop titled "MASTERY IN FON: Bridging Theory and Clinical Practice."

The workshop aims to strengthen the integration of theoretical knowledge in the Fundamentals of Nursing (FON) with core clinical applications. It provides a unique educational platform for first-year B.Sc. Nursing students to gain hands-on exposure to essential nursing procedures, patient care equipment, and clinical simulators.

This academic initiative will enhance conceptual clarity, promote interactive learning, and help nursing students master the foundational skills required for safe and effective patient care. Expert nursing faculty will deliver interactive sessions, step-by-step procedural demonstrations, and supervised hands-on practice modules to bridge the gap between classroom theory and real-world clinical proficiency.

OBJECTIVES

- To strengthen the foundation of essential nursing procedures and patient care techniques for safe and effective clinical practice. (SDG 4: Quality Education)
- To provide experiential learning to students through supervised, hands-on practice with clinical simulators and standard medical equipment. (SDG 4: Quality Education)
- To promote the seamless integration of classroom theoretical concepts of Fundamentals of Nursing with real-world clinical applications. (SDG 4: Quality Education)
- To develop students' clinical reasoning, decision-making, and adherence to standard protocols to ensure optimal patient safety. (SDG 3: Good Health and Well-being)
- To build the clinical competence and confidence of nursing students prior to their transition into live hospital ward environments. (SDG 4: Quality Education)
