MedSkills Edge: A Hands on OSCE Workshop

**Date – 1st-3rd June 2026
(09.30 am to 12.30 pm)**

**Location - Fundamental of Nursing Lab, room no-
211, 2nd floor, SSNSR, Block 4, Sharda University**

About the topic –

The MedSkills Edge: A Hands-on OSCE Workshop is designed to bridge the gap between theoretical knowledge and practical clinical application. In modern medical training, competence in essential procedures and structured clinical assessment is crucial for delivering safe and effective patient care. This workshop focuses on Objective Structured Clinical Examination (OSCE) based learning, allowing participants to engage in simulated, real-world clinical scenarios. Through guided practice and expert feedback, attendees will develop confidence and proficiency in key medical procedures.

Students will gain hands-on experience in core skills such as airway management, basic and advanced life support, intravenous access, and emergency response techniques. The workshop emphasizes accuracy, communication, and time-bound decision-making skills essential for both examinations and clinical practice.

By the end of the workshop, students will be better prepared to perform under pressure, approach clinical situations systematically, and enhance their overall clinical competence.

Objectives of the Event.-

- To develop hands-on skills in core medical procedures. (SDG 3 & SDG 4)
- To understand OSCE format and performance expectations. (SDG 4)
- To improve clinical decision-making and communication. (SDG 3 & SDG 4)
- To build confidence in real-life patient scenarios brief about Nursing profession. (SDG 3, SDG 4 & SDG 8)
