## ABOUT THE UNIVERSITY

Sharda university has over the years become one of the leading centres of the education, research and innovation in Delhi NCR region established through an act of state legislature of Uttar Pradesh (14 Of 2009), Sharda University offers over 216 UGC recognized Programmes/ Plans in various disciplines. It is a part of the renowned Sharda group with operations in area like education, health care and IT.

Being the only global university in India that has seen students from 85+ Countries experienced world class faculties and having 250+ global academic partnerships, Sharda University offers a truly international learning environment. That's why it says "The World is here, where are you?"

The School of Nursing Science and Research was established in 2008 to train young students as dedicated professional nurses, capable of contributing effectively towards the growing health demands of the health sector. The college has a state of art, supportive learning environment with good clinical and library facilities, which attracts National and International students. Regular co-curricular and extracurricular activities are planned meticulously and organized by group of highly motivated faculty. Students have access to medical facilities within the campus as university has a world class 1200+ bedded NABH accredited multispecialty hospital with all modern medical facilities. Sharda Group has currently established a 550 bedded hospital in Nigeria equipped with the all-modern facilities and sophisticated equipment to provide comprehensive health care to all sectors of the society, and established a university in Uzbekistan.

## ABOUT THE EVENT

Nursing is one of the professions which requires knowledge along with clinical competence to provide high quality nursing care. The retention of BLS by Re-demonstration is designed for 3rd semester B.Sc. Nursing students to refresh and reinforce their emergency care skills. The session focuses on hands-on practice of Basic Life Support techniques such as cardiopulmonary resuscitation (CPR), chest compressions, airway management, and use of an automated external defibrillator (AED). By engaging in re-demonstration, students gain confidence, competence, and preparedness to handle real-life cardiac and respiratory emergencies.

## OBJECTIVES

- To revise and strengthen the BLS skills of nursing students.
- To enhance confidence in performing CPR and managing emergencies.
- To encourage critical thinking and rapid decision-making during crisis situations.
- To prepare nursing students for clinical practice with life-saving competencies.
