Workshop

PRECISION IN PRACTISE

HANDS ON JOURNEY INTO SOFT TISSUE BIOPSY & LASER

30th May, 2025 (Friday)

9:30 am - 4:00 pm

Venue: 2nd floor, LT3, School of Dental Sciences, Sharda University

Objective of the Event:

The objective of pursuing this workshop on **Mastering in Oral Biopsy and Laser Therapy** is to provide dental professionals with advanced knowledge and clinical skills in diagnosing oral pathologies and performing minimally invasive treatments using different biopsy techniques including laser. This type of program typically focuses on:

- Enhancing the ability to identify, assess, and diagnose oral lesions, precancerous conditions, and other soft/hard tissue abnormalities through clinical methods.
- Gaining hands-on experience in performing various types of oral biopsies (incisional, excisional, punch) safely and effectively.
- Learning about the principles, types, and applications of dental lasers (diode, CO₂, Er:YAG, etc.) for oral soft tissue lesions.
- **Session on Suture materials, needles and various suturing techniques.**
